DISCUSSION ON TO THE FORESTRY MANAGEMENT TYPES AND THE SYSTEM OF EVALUATION INDICATORS OF ENVIRONMENTAL FUNCTIONS IN CHINA

Wang Mingyuan (Institute of Forest Ecology and Environment, CAF\ Beijing 100091)

In view of property of environmental value of modern forestry management, this paper presented the system of forestry management types in China, which mainly includes natural reserves management, management of ecological forestry engineering, comprehensive management in forest areas and urban forestry management, etc. It also gave the classification of forest types based on the characteristics of environmental function of different forestry management types. Herefrom, this paper puts forward the system of evaluation indicators of environment function for different types of forestry management.

【Key Words】 : **Types of forestry management Environmental functions Evaluation indicators**

【CateGory Index】 : S75
