This research was supported by the United States Environmental Protection Agency's (EPA's) Science to Achieve Results (STAR) program grant R82612-01 and used data and analysis from previous work funded by the US Army Corps of Engineers, Waterways Experiment Station. Because this article has not been subjected to any EPA review and does not necessarily reflect the views of the Agency, no official endorsement should be inferred. A more detailed treatment of these issues (with complete data and graphs) will be available in the final research report and is currently available as a manuscript from the authors.
