# Evaluation of Forest Ecosystem Services Function

XU Ji-quan (School of Geographical Sciences,Fujian Normal University,Fuzhou 350007,China)

As a main body of terrestrial ecosystem,forests play an important role in global ecosystem.Evaluation of service function is a key issue.This paper reviewed and introduced the concept,the intension and the appraising index of forest ecosystem services,as well as the appraising indexes and the method of economic value assessment.At the same time,the author also put forward the opinion on these.

【Key Words】 : **ecosystem service function forest ecosystem evaluation biodiversity**

【CateGory Index】 : S718.5
