# Overview of the Studies on Ecosystem Services

Tian Yunlin(Qinhuangdao Water Conservation Management Office,Qinhuangdao Hebei 066000)

The study on ecosystem services has been one of the hottest in the field of ecology,which expresses the thought of sustainable development.On the basis of the researches of former people,this article introduces the definition and the developing process of ecosystem services.At the same time,it also discusses the theories and methods of evaluation of ecosystem services.Through all above-mentioned,it indicates that the research on ecosystem services is still in the beginning period,which is slower than developed countries in the study of ecosystem services.In the future,we need increasing the investment in the development of ecosystem services study,especially in the aspects of based theories and methods.

【Key Words】 : **ecosystem services ecosystem assessment method sustainable development natural capital value humanist value**
